Is that the Dragon?

Presumably.

We're going to have to cross the canyon to reach it, ensure we have at least two weeks' worth of provisions.

The Prince has yet to return, and we cannot it is permitted for us to depart without him?

It seems that Margaret Richard is working under the King's command and will be taking responsibility for this expedition.

Stay still

You're as foolish as ever.

She endured it well,

considering she was dealing with a woman who not only has the highest authority around but is also insane

It doesn't matter what you do, it's like something in her mind just snaps and she rages.

There is

notoriety
among the members
of the platoon.

She's really in love
with Kai — even followed
him to the barracks.

At the slightest
sign of being ignored
or overlooked, she'll
threaten suicide.

Once, she faked
falling down the stairs;
she persisted in her
melodramatic charade while
subjecting those around her
to full-on hysteria.

Not to mention that
any woman near Kai
is branded a whore.

and treated like
an inferior being.

What's more, she
even did that to me?

I have no idea why
Ron partners in his
involvement with her.

I wish she would
just leave. And soon.

I see

So, uh...

While Eliza is around
could you take care of this kid,
professor? I've been assigned back
to the Killjoy Platoon for the
canon investigation.

She's a bit of a ditz,
but she won't be too much
trouble for you.

I don't know when Ron is
going to come back, so—

Alright

Thank!

Professor Kato is so stoic,
he doesn't seem thrilled
with the idea,...

Even so, they're siblings.
Hopefully, they'll be able to grow
a bit closer in the meantime.

Well then
I'll excuse myself
Enjoy each other's company

SILENCE ---

[Working]

I suppose
I could tidy up...

Queen Elise,
I wasn't expecting you
to come here.

Did you get rid of the king?

That's...

The necklace
you gave me,
I was slipping it into
his meals regularly!

It made it seem as
though the king was
going mad after
Hollan's collapse.

He got worse with
each passing day.

Is that... so...?

Now, he's disappeared without a trace.

We still haven't found him, however.

Many aristocrats and nobles were killed or injured in the recent disaster and the survivors are consumed with self preservation.

And although General Landon is organizing the situation,

he doesn't have the ability to mobilize the forces.

Regardless, even if the king has fallen,

we already have a successor.

This is the perfect opportunity for Prince Ryburt to assert control of the kingdom, is it not?

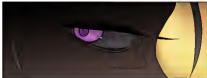

The time you
have been waiting
for has come!

Although Fabel the First is said to
have weakened a great deal, he was
once filled with vigor and ambition —
when he was Maryak's Ryemus.

I suppose he's using his
remaining strength to find her.

Too bad; if I could've used Reinart
longer, I would have found him.

It's a shame I had to discard him.

Is there anything you're
displeased about?

This place is disorderly

It's cold. It's filled
with debris and

my movements
are restricted

while that woman
is shamelessly going
wherever she likes and
without knowing her
station in life

In the past,

Mother and brother were
always focused on something.

while I watched
from the side and

Father was

That slave girl

SNAP!

LOVE MANGA

isn't of use anymore.

But she still
needs to compensate
me for my losses

Well, that's just how it was.

LONE WANG!

Isn't that right?

BOOM

I've grown weak because of "that"...
